

# ClimateWorx

Commitment to Quality and Customers

ClimateWorx, a global supplier of cooling solutions offers both design and manufacturing of mission-critical climate control products. They are a member of the Bempro Global Group of Companies with BMP Metals and CableTalk.

“The biggest advocates for the effectiveness of MIE Trak Pro were the people we had trained early on in the process. Having people on our team who were willing to learn and help teach others is what made our implementation quick and successful. We were up and running in just a few weeks!”

**Lori Holjevac**  
VP of Finance

## Challenges

- Integrate multiple businesses and process standards
- Lack of visibility in multiple areas of the business
- Need customization at reasonable cost, especially since they are one of three divisions under Bempro Group that uses MIE Trak Pro
- They didn't want to use a different system from the other business entities

## Solutions

- Research applications that focus on manufacturing and are customizable
- The ClimateWorx management selected MIE Trak Pro because it was manufacturing-centric, fit their business model, and offered continuous development of features based on their requests

## Value Added

- Feature requests were built into the software
- Available quality control features, including ECR (Engineering Change Request)
- Continuous training of new and existing employees
- Quick Views and Dashboards
- Reporting of all three divisions under Bempro Group
